

# Vatican city solar installation

## Overview

---

ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. Italian energy supplier ACEA installed the photovoltaic roof in just six months in the Courtyard of the Corazze entrance. "The most difficult thing is to integrate and find spaces to build photovoltaic infrastructure in places that are already heavily built up," said ACEA president, Barbara. Vatican City is powered by solar. On , the Vatican City officially transitioned to solar power, marking a significant shift in the European energy landscape. Now, the country is officially energy-independent, as. In line with the principles of the encyclical 'Laudato Si' and a United Nations agreement on climate change, Pope Francis is making the Vatican "greener. He did so with the apostolic letter.
