

Victorian solar power station planning map

Victorian solar power station planning map

[Victoria's Renewable Energy Roadmap](#)

Victoria's Renewable Energy Roadmap

[Renewable Energy Projects Victoria](#)

A summary of the energy generation facilities in Victoria that are operational, approved, in process and under construction. Note: this does not include existing gas and coal generation.

[Victorian solar power station planning map](#)

The Solar Victoria Virtual Power Plant (VPP) pilot program is an initiative designed to connect Victorian households and reduce their energy costs by making the most of renewable energy from solar ...

[The 2025 Victorian Transmission Plan](#)

See the draft proposed renewable energy zones in more detail and download shape (GIS) files in our online interactive map. For more details about each zone, read our factsheets.

Renewable energy zones

To read the draft orders and view a map of the zones and make a submission, visit Engage Victoria. You can also watch webinars to learn more about the draft renewable energy zone orders ...

[Proposed and operational renewable energy projects across Victoria](#)

That's why we've created this interactive map -- to make it easier for communities, stakeholders, and anyone interested to see where projects are already located and what's underway.

[Businessmapsaustralia -- Victoria](#)

This map is derived from the Australian Power Generation data base, and presents the state area specifically in terms of the complete power and energy program in place.

[Network data , CitiPower & Powercor](#)

Network data from the CitiPower and Powercor networks. This data is available on Voltage performance, embedded generation, zone substations, renewable energy mapping, and network planning.

Solar energy facilities

Design and development guideline The Solar energy facilities design and development guideline supports the siting, design and assessment of large-scale solar energy facilities in Victoria.
