

What does csun photovoltaic panel mean

Overview

CSUN is Chinese solar panel manufacturer that is also known as China Sunergy. China Sunergy was founded in 2004 and started its first solar cell production line in 2005. Global Manufacturing Footprint: CSUN stands out for its diverse global manufacturing, spanning China, the USA, Turkey, South Korea, and Vietnam, which is a unique approach for a Chinese solar panel manufacturer. The low-temperature coefficient, 0.423%, makes them excellent for all parts of Australia. Note: Solar Choice is not a solar installer and has no financial or other incentives to promote any product brand over another. It leads the research direction of high-performance PV technology around the world. 5GW design. The CSUN 300-60M solar panels are compatible with various solar energy systems, including grid-tied and off-grid setups.
