

What is the damage caused by installing photovoltaic panels on the roof

Overview

The short answer is no, solar panels generally do not damage a roof if the roof is in good condition and the installation is carried out by qualified professionals. These installations will typically last around 30 to 35 years, so it's important to ensure installing panels doesn't cause harm to your roof. Professional installers ensure they're securely mounted, using roof-friendly methods to avoid leaks or structural issues.
