

What is the standard price of photovoltaic panels

Overview

Based on our 2025 survey of 1,000 solar customers, the national average price for a single solar panel professionally installed is \$1,200. This means most full-size systems of between 20 and 30 panels cost between \$24,000 and \$36,000. Solar panels cost \$1,200 per panel, depending on the type of panel, home size, energy usage, and labor. Clicking “Get Your Estimate” submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy. Understanding solar panel costs is a key step in. But when you begin comparing quotes, incentives, and equipment types, one question inevitably rises to the top: What do photovoltaic panels actually cost?

The answer isn't a single number you can pull from a chart.
