

What is the warranty level of photovoltaic bracket

Overview

Generally both of the two types of bracket have a minimum warranty of 25 years, but different material and production process come with a different service life. We use high - quality materials to manufacture our fixed solar brackets. A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

What is the warranty level of photovoltaic bracket

[The 3 Tiers Of Solar Warranties](#)

Solar panel manufacturers typically give 25-year warranties, and inverters usually come in the 10-12-year range. Every state has different requirements for workmanship warranties, but at this ...
